

Make sure you don't miss out!

You and your colleagues might have been enjoying free access to the first two volumes of these RSC Publishing journals

Analytical Methods – linking industry and academia by focusing on the practical value of analytical science for real world applications. www.rsc.org/methods

Integrative Biology - publishing novel biological research, based on innovative experimental and theoretical methodologies. www.rsc.org/ibiology

Metallomics – interdisciplinary science which provides insight into the role of metals in biological, environmental and clinical systems. www.rsc.org/metallomics

Nanoscale – experimental and theoretical work across the breadth of nanoscience and nanotechnology. www.rsc.org/nanoscale

Want to retain access?

In 2011 these journals are available by subscription only. If you'd like to retain access, **recommend them to your information specialist today** – www.rsc.org/libraryrecommendation

And the best advocate to prove to you that RSC journals provide essential research is *Energy & Environmental Science*. Launched in 2008, it's received its **first Impact Factor: a whopping 8.5!** www.rsc.org/ees

Analytical Research Forum 2011

25 - 27 July 2011
University of Manchester, UK

Registration now open!

The annual Analytical Research Forum (ARF) is a major event for researchers in Analytical Science and is run by the RSC at a location in the United Kingdom or Republic of Ireland. The meeting is aimed primarily toward early career stage analytical science students (PhD students and postdoctoral researchers). The invited lectures have been selected to reflect the broad range of research interests giving attendees exposure to a number of analytical science applications

Keynote Speakers

Invited lectures have been selected to present research in areas of topical importance:

A Random Walk Through Analytical Chemistry

Professor Neil W Barnett
Deakin University, Australia

Micro Total Analytical Systems - Are we there yet

Professor Stephen Haswell
University of Hull, UK

From Hand Waving to Hardware: The Path to Fielded Instrumentation

Dr Raymond P. Mariella Jr
University of Valladolid, Spain

Scanning Electrochemical Microscopy and Possible Applications in Bioelectrochemistry and Materials Research

Professor Dr Wolfgang Schuhmann
Ruhr University, Bochum, Germany

Key Deadlines

Oral abstracts:

25 February 2011

Poster abstracts and early bird registration:

27 May 2011

Standard registration:

24 June 2011

Submit your abstract NOW

advantage of discounts

Workshop: Analytical Science in the Manchester Interdisciplinary Biocentre (MIB) Monday 25th July 2011, prior to the commencement of ARF

Ever wondered what Analytical Science can do for research in the life sciences?
Then this is the workshop for you!
Fee £25 - book online when registering for ARF
