

## **Food & Function**

Linking the chemistry and physics of food with health and nutrition

Food science and nutrition is a highly multidisciplinary area. We know it can be difficult to keep abreast of each other's work, especially when there is not enough time in the day and the pile of work keeps growing.

Wouldn't it be great if there was a journal which pulled together high impact chemical and physical research linking to human health and nutrition? Just one platform to find what you need in the field, and reach exactly the right audience when you publish your work.

Food & Function provides a dedicated venue for physicists, chemists, biochemists, nutritionists and other health scientists focusing on work related to the interaction of food components with the human body.

Go to the website now to submit your research and register for free access!

Looking for cutting-edge chemistry?
Interested in growing your professional network?

## RSC e-membership allows you to...

- Keep up-to-date with the award-winning Chemistry World magazine online for the latest global chemistry news
- Connect and interact with the international scientific community on MyRSC, the professional network for the chemical sciences
- Engage with like-minded scientists in your field by joining a virtual specialist interest group and discuss the science that matters to you

Please visit us at www.rsc.org/emembership to join now
